

# CHAPTER 21

## Map Activity

### Landforms of Northwest Africa

Northwest Africa contains a variety of landforms, including coastal plains, mountains, and deserts. Examine the map of the region below. Then answer the questions on the following page.

**Chapter 21, Map Activity, continued**

1. What is the principal mountain range of northwest Africa? Where is the highest portion of this range? What is the elevation of Mt. M'goun, in meters?

\_\_\_\_\_  
\_\_\_\_\_

2. Where is the Tamlelt Plain? What is the altitude range on the plain?

\_\_\_\_\_

3. What is the Wadi Ziz? The Sebkha de Tindouf? The Erg Iguidi?

\_\_\_\_\_  
\_\_\_\_\_

4. Which of the countries on the map has the most mountainous land? Which has the most desert land?

\_\_\_\_\_  
\_\_\_\_\_

5. What is the elevation of the land around the Chott Melrhir? What landform lies just to the north?

\_\_\_\_\_  
\_\_\_\_\_

6. **Critical Thinking: Interaction** What two items on the legend indicate human-environment interaction? How do you think each of these affects life for residents of the region?
